The aim of Mural Art Career Development is to provide a subsidized program of accessible training for emerging artists and producers in the field of mural art. The program is designed to address the needs of emerging mural artists and project managers, preparing them for the workforce by providing training and insight into the range of necessary skills, information and knowledge for a successful career in mural art.

This is an intensive, approximately 60-hour, curriculum course that includes workshops delivered by professionals in various aspects of project management and artistic production. In addition to the workshops, each participant will complete the training with an independent study assignment, creating a theme, design and method of application or project proposal for a specific site.

Mural Art Career Development is generously supported by the Ontario Trillium Foundation as part of Mural Routes' MURALi (Mural Art Learning Institute), and is offered fully subsidized to qualified participants. Participants will be selected through an application and interview process. Successful candidates will be required to sign a [contract of commitment to the program](#).
